NMFS IT Security - Web Server Incident Procedures

Web servers should be monitored for intrusion.

Incident Occurs

The web server administrator will provide the following information:
- The type of intrusion
- IP Number (if known) and or DNS name
- System administrator's name and phone number

Web Security violations will be reported to the NMFS ITSO - Nancy Majower at 301-713-2372 (Work), 301-343-6301 (Cell) or 301-879-1480 (Home)

Web server administrator contacts the NOAA Computer Incident Response Team (N-CIRT) at 301-713-9111

If for some reason the NMFS ITSO cannot be reached contact the alternate - Bill Bradley at 301-713-2372 (Work), 301-343-7081 (Cell) or 410-224-2035 (Home).

NMFS ITSO will contact the Web Master - Kevin Holland

NMFS ITSO will contact the NMFS CIO

NMFS CIO will contact the NMFS D.A.A.

NMFS D.A.A. will coordinate with Public Affairs for a public response.

System administrator will complete form 47-43 within 24 hours of incident. https://www.csp.noaa.gov
